Water and Waste Water Industry

Optimise Waste Water Management with TECO Electric Motors & Drives

Contact US

In a world where water demands are rising, and efficiency is paramount, TECO presents innovation and solution-driven technologies. Water industry professionals face the uphill battle of balancing efficiency, energy costs, and sustainability. The increasing demand for water puts pressure on systems designed for yesterday's needs.

TECO envisions a future where the water industry conquers challenges with streamlined processes, reduced costs, and a commitment to sustainable practices. Our electric motors and variable speed drives are the driving force behind this vision.

Pumping Systems: The Heartbeat of Water Distribution Wastewater Treatment: A Cleaner Tomorrow Desalination: Turning the Tide on Freshwater Scarcity Energy Efficiency Redefined:

Struggling water distribution systems try to meet growing demand while grappling with inefficient pump systems, skyrocketing energy bills, and the constant threat of downtime. TECO Electric Motors and Variable Speed Drives optimise performance, reduce energy consumption, and minimize downtime, allowing water distribution systems to deliver more with fewer resources.

Wastewater treatment plants grapple with the dual challenge of maintaining environmentally friendly practices and containing operational costs. The need for innovative solutions has never been more critical.

TECO transforms wastewater treatment by streamlining processes and lowering operational costs. Our Electric Motors and Variable Speed Drives contribute to environmental sustainability, turning the challenges of today into the clean solutions of tomorrow.

Desalination plants face the daunting task of turning seawater into freshwater, an energy-intensive process fraught with reliability concerns.

TECO Electric Motors and Variable Speed Drives optimise desalination plants, ensuring a reliable freshwater supply while maximizing energy efficiency. We turn the tide on scarcity, offering a pioneering solution for a thirsty world.

TECO's commitment to sustainability translates into energy-efficient solutions. Lower your operational costs while reducing your environmental footprint.

Water Industry Solutions for you TECO MAXeV4 IE4 Super Premium Efficiency Electric Motor PAY CALCULATOR WATCH VIDEO Calculate Your Savings and Payback Period Ready to Secure Your Savings? The data speaks for itself. To get a precise quote on the TECO VIEW MORE TECO MV510

Medium Voltage Optimised for Efficiency and Reliability Designed for a range of applications including Oil & Gas, and Power Generation, TECO MV510 stands out with its multilevel H-Bridge topology, ensuring ultra-low harmonic VIEW MORE TECO Wound Rotor Tailored Solutions for Unique Applications TECO Wound Rotor Motors offer personalised solutions for specific needs, catering to a range of customer demands. These motors are exceptionally adaptable and effective, making VIEW MORE TECO MAXe3 MINING Premium Efficiency Premium Efficiency Electric Motors specifically designed to meet the rigorous demands of the Mining industry. With True IP66 protection rating and Class H insulation system, TECO MAXe3 Mining Electric Motor VIEW MORE TECO AFJE MAXe3 Mining The TECO AFJE Electric Motor, made of cast iron, is engineered to meet or surpass the IEC60034 Minimum High Efficiency Performance Standard. This motor can deliver power ranging from 150 VIEW MORE TECO MAXe3 Premium Severe Duty Efficiency and Reliability Redefined: Introducing TECO MAXe3 Premium Severe Duty High-Performance Motors with IP66 protection. TECO MAXe3 Premium Severe Duty Electric Motor has true IP66 protection, which is enhanced by VIEW MORE Read Brochure Book a Consultation Have questions or need assistance?
