Rotating the World Sustainably & Reliably with TECO's Industrial Solutions

At TECO, we believe in leading the charge towards a sustainable future.

LEARN MORE Our comprehensive range of solutions is designed to empower your business, driving both operational excellence and environmental stewardship.

Explore how our state-of-the-art electric motors and variable speed drives can transform your operations and contribute to a greener planet.

Our solutions are designed to empower your business through

Green Product Development

Our energy-efficient products are designed to minimise environmental impact while maximising performance. This innovation in green product development sets new standards and has helped us to deliver world first technologies.

Renewable Energy Integration

By seamlessly incorporating renewable energy into our operations, TECO is not only producing more efficient products but also significantly lowering our own environmental impact. This integration moves us closer to our published goals of zero carbon emissions by 2050 and halving carbon output by 2030.

Leveraging Technology

Utilizing IoT, AI, and blockchain, TECO products optimize resource use, reduce waste, and enhance overall sustainability. This technological integration drives us towards our target of a future with zero carbon emissions.

Transparent Supply Chain

Our supply chain meets rigorous environmental, quality and sustainability standards, ensuring that every component of our products is sourced responsibly and traceable at any stage.

Advanced Energy Management

Our electric motors, motor starting technologies and associated equipment will ensure optimal performance, reducing waste and improving overall productivity.

Achieve Operational Excellence and Environmental Sustainability

By choosing TECO electric motors, your business will experience significant benefits:

Cost Savings

Enjoy substantial reductions in energy bills and reduce your own carbon footprint with our efficient motor solutions.

Efficiency

Streamline operations, reduce maintenance and improve resource management.

Compliance

Meet local environmental regulations and standards by using products that are designed with minimising environmental impact in mind. TECO products hold all required compliance and quality accreditations and are guaranteed to comply with all laws and statutory requirements

Reputation

Enhance your brand's reputation by committing to sustainability. TECO is publicly sharing our progress in carbon reduction internationally, working toward third party accreditation across the world in how we account for carbon and proud to share with our customers any data that will assist their own efforts in this regard.

Future Proof

Contribute to a greener, sustainable future for generations to come. TECO measures our own carbon outputs and consistently works toward reducing the emissions of our customers and ourselves.
