Invicta BKD DC Base Mounted Vibrators

BKD06-2/2 Electric Rotary Vibrator is a powerful and versatile device that will meet all your vibration needs. This model features adjustable out-of-balance weights at both ends, allowing you to fine-tune the intensity from 0% to 100%. Designed for easy installation, the vibrator is base mounted, ensuring stability during operation. Operating on 12/24 Volt DC power, this electric rotary vibrator gives you the flexibility to adapt to different power sources. With two available speed options, 1600 RPM and 3100 RPM, you can select the ideal speed to suit your application.

When it comes to generating force, this vibrator truly excels. It delivers a centrifugal force of 61 kg at 1600 RPM and an impressive 230 kg at 3100 RPM. Its power and efficiency make it perfect for a wide range of industrial applications.

Safety and durability are top priorities with the BKD06-2/2 Electric Rotary Vibrator. It is total enclosed, providing excellent protection against dust and water, with an IP66 rating. The integral cast top mounted terminal box ensures convenient access for wiring and maintenance.

To top it off, this model comes with a standard paint finish in the attractive Hammertone Silver color. This not only adds aesthetic appeal but also provides an extra layer of protection against corrosion and wear. Choose the BKD06-2/2 Electric Rotary Vibrator for reliable and efficient vibration performance. Whether it's for industrial processes, material handling, or any other application requiring dependable vibration, this model is sure to meet your expectations. Invest in quality and power with this exceptional electric rotary vibrator.
