Star Delta Starters LV Starters

Efficient Power Solutions :

TECO Star Delta Starters for Seamless Motor Performance in the 11KW to 55KW Range. TECO Star Delta Starter is designed for 11KW to 55KW power range. Engineered with precision, these starters offer reliable and efficient induction motor starting capabilities. Operating at 415 Volt 50Hz 3 Phase, our starters come equipped with adjustable switch-over timers for customisable functionality. With convenient cable entry knockouts at the top and bottom, installation is hassle-free. We also provide a range of overloads suitable for different motor ratings, allowing for easy retrofitting to match your specific needs. Need a different voltage? No problem. Our starters can be retrofitted with coils to accommodate various voltage requirements.

Features:

11KW to 55KW

AC3 (Induction Motor Starting) Rating

415 Volt 50Hz 3 Phase, coils rated 415 Volt

Adjustable Switch Over Timer

Cable Entry Knockout Top and Bottom

Other Overloads available for Special Motor Ratings (Retrofit an Overload that suits the Load)

Other Voltages Available (Retrofit coils that suits the Voltage)
