TECO Wins at the 2026 Australian Bulk Handling Awards

Posted on September 18, 2026

TECO has officially won the 2026 Australian Bulk Handling Award for Excellence in Drive Systems and Power Transmission.

After being announced as a finalist earlier this year, we're now delighted to be taking home the win, a genuine testament to the innovation, engineering and technical leadership our team has poured into the TECO MV510 .

The win belongs to the engineering, sales, product managers and support team who put these drives in and keep them running. Two tough mining sites are a big part of that story; where our drives, and our people, have done the job.

A huge congratulations to our electric motor team and everyone involved.

TECO MV510 Modular constructed cabinets with IP31 Protection complete with Fortress Interlocking safety for all cabinets and personnel
